

PRARA LEATHERS PVT LTD | PRARA ASIA VIETNAM | AVANTI LEATHERS LTD

SPRING SUMMER 2024

WHO WE ARE

We, PRARA / AVANTI LEATHER GROUP, with over 40 years of experience in leather manufacturing, we as a company began finished leather business in 2013 with a passion for leather manufacturing with a solid and controllable base of raw materials which makes us world class finished leather makers with an Italian aroma. We are a TOP QUALITY SMALL SKIN MANUFACTURERS (suede and grain leather) providing sustainable ecology to future generations with our strong technical capabilities. In addition, we added our line to Indian buffalo line.

We integrate environmental and social principles in our businesses, ensuring that what comes from nature goes back to nature and people.

OUR VISION

To be the top quality producer of high fashion, environment friendly and sustainable finished leather from our world class manufacturing facilities. We will continue to be value creators to our customers worldwide.

and to be globally number #1 finished leather manufacturer from India in small (Goat & Sheep) by 2025 and leading value provider in buffalo articles to key brands.

OUR MISSION

To be the most sustainable and reliable partners of the fashion leather industry taking the environment as a major factor. Lead developers and front runners in ECO friendly and biodegradable leather with our responsibility to environment.

and catering to premium brands and consumers as a milestone in our business that delivers value through integrity in business and excellence in products and services.

"To be a responsible value creator for all our stakeholders".

Sustainability put into practice

Our vision is the implementation of Best Available Techniques combined with our own in-house R&D innovations.

Sustainability is not a project for us, it is part of our company's DNA and can be found in all our daily business.

High quality and longevity are our set standards and lead to a lower environmental impact throughout the life-cycle of all our products.

Urbolon

The supple, pliable, soft feel and warm, cheesy touch is the feel-good element which makes this one unique. The look increases the desirability further.

Our Sustainable Tanning Methods

Chrome and metal free leathers considering all sustainability parameters of leather production.
We reduce water consumption and TDS by 40%

Pure veg tannage from mediterranean olive trees providing high quality, biodegradable leather that is skin - friendly, free from heavy metals and save to work with.

Synthetic tannage that stabilizes the collagen to ensure a long product life. simultaneously the articles are kept natural to ensure biodegradability if required.

Lite leathers provide multiple advantages such as lower water and chemical intake, as well as an improved comfort through the reduced weight.
